MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: [redacted]

Director, Intelligence Community Staff

25X1

SUBJECT: Response to Senator Schmitt's Query on WARC

1. At the SAC overview on 29 April, Senator Schmitt asked you the questions in the transcript extract in Attachment A. We have prepared for you a response (Attachment B) designed to be forthcoming while keeping you and the Community from being caught up in what we understand to be a turf battle between State and Commerce over control of international communications matters.

2. In staffing the reply, we took time to make sure that there were no lurking substantive issues, with respect to the forthcoming conference, that we should be aware of and working on. Among other steps, we had [redacted] talk to the State task force people and review the papers available thus far. There is nothing of concern at the moment, but issues can develop between now and the conference. [redacted] of CIA will continue to monitor and keep us informed.
